FUNDAMENTAL CARE

Employer-Sponsored | Expense-Incurred | Self-Funded | Limited-Day Plans

Concerns like depression, stress, substance abuse, grief and anxiety impact the health and productivity of employees, as well as an employer's direct and indirect costs. An employee assistance program (EAP) is the most effective resource in an employer-driven strategy to address these issues.

CuraLinc's approach to delivering value to EAP clients starts with a tailored engagement strategy that drives awareness and utilization to an evidence-based program that has a measurable impact on participants, as well as the organization.

Cura Linc's employee assistance program (EAP) addresses a wide array of concerns that impact health and productivity:

Addictive Behaviors - Anxiety - Depression - Grief and Loss - Relationship Problems - Alcohol or Drug Abuse - Caregiver Support - Family/Marital Problems - Legal Issues - Stress-Related Concerns - Anger Management - Dependent Care Issues - Financial Issues - Organizational Change - Work-Life Balance

Benefit-eligible employees and their immediate family members have access to the program twenty-four hours a day, every day of the year. To address the needs of non-English speaking members, Curalinc employs Spanish, Polish and Russian-speaking Case Managers. Curalinc also offers translation capabilities for more than 140 other languages and maintains a toll-free TDD line for hearing-impaired participants.

After assessment, the participant is referred to a local clinician for resolution-driven face-to-face counseling. CuraLinc's nationwide network of over 20,000 counselors are state licensed professionals with a minimum of five years clinical experience. **There is no cost for up to 5 visits.**
